Total Pension Fund Value = £376,846.00

Note on Income Yields: Income Yields are based on annualised historic and declared dividends. In the case of income arising from overseas holdings, we provide a gross estimated yield, whether such holdings be debt or equity related. The actual treatment of income for tax purposes will depend on the investment, its country of origin and investors' circumstances. If you would like more information, please contact your Investment Manager, or alternatively your Tax Adviser.

Performance figures are calculated on a time weighted basis, making full allowance for the flow of any funds in or out of the portfolio(s) during the period. The performance is calculated prior to the deduction of any management fees. The capital return takes into account the value of securities held in the portfolio(s) including cash, whereas total returns also take into account income and interest received, including accruals.
