Hello Mr Karim Khimji,

Your electricity and gas bill

For 25 October 2018 - 04 February 2019 (103 days)

| | |
|--|--------------------|
| The balance on your last bill (24 October 2018) | £14.61 in debit |
| You paid us (3 payments of £128.00, 1 payment of £117.00) | £501.00 credit |
| Your charges for this period (including VAT) | £476.73 |

Your new account balance **£9.66**
in credit

We are changing your monthly energy payment to £112.00

Your annual billing period is 31 Aug 2018 - 9 Sep 2019.

Based on your current usage and prices (including VAT), and taking into account any existing credit on your account, we predict you may need to spend a further **£784.00** on energy between 4 Feb 2019 and the end of your annual billing period in order to ensure your account remains generally on track with your actual usage.

As you are due to make 7 monthly payments during this period, this means your monthly payment needs to decrease from **£128.00** to **£112.00**. So, unless we hear from you, we'll change your payment to **£112.00** starting on 1 Mar 2019.

If you'd like to make any changes to your Direct Debit, a minimum of four working days' notice is needed before your next payment.

Supply Address:

106 Bickenhall Mansions, Bickenhall Street,
London, W1U 6BT

Could you pay less?

Over the next 12 months

Electricity personal projection: £1,261.93

Gas personal projection: £150.86

This is based on an estimate of your usage last year. It includes our current prices, as well as discounts or charges, like VAT. Your Standard (Variable) prices may go up or down.

Our cheapest variable tariff

You're on our cheapest variable electricity and gas tariffs available for your meters. We'll let you know at least once a year if this changes.

Our cheapest overall tariff

Over the next year you could save **£45.31** by choosing *Easy Online Mar20* with Direct Debit, our **cheapest fixed electricity and gas tariff** available for your meters.

Accurate as at 4 Feb 2019. Please note, we frequently withdraw and launch new tariffs, so whilst the cheapest tariff we have shown was available on sale at the time we processed this bill, this may have changed.

Remember - It might be worth thinking about switching your tariff or supplier.

Please note that different tariffs may have eligibility criteria, limited availability, different terms and conditions or require a meter exchange.

For more about your current tariff, see page 2.

A few things to remember

The tariff above is the cheapest available to you at the time of writing, but it could have certain eligibility criteria. For example, you might not be able to buy it directly from us and you may need to go via a 3rd party website instead. It could also be dual fuel only, so you'd need to switch both your gas and electricity over. Your ways to pay may be limited and you might also need a different meter. For our full tariff availability, visit edfenergy.com/tariffchoices
