## Could you pay less?

Your Personal Projection is **£526** per year for electricity and **£503** per year for gas. This is your estimated energy spend for your current tariff assuming you use the same amount of energy as you did last year. It includes any discounts and charges like VAT. Please note you are on a variable price tariff and prices may go up or down.

Congratulations! You are already on our cheapest tariff. We will let you know if this changes.

Tariffs may be withdrawn at any time. Switching tariffs may involve moving to different terms and conditions. Visit our website for details. Remember - it might be worth thinking about switching your tariff or supplier. For more information on your tariff and switching, see overleaf.
