Notes

- Any transfer values shown above are based on the latest information available to Scottish Widows, and are not guaranteed. Remember, the value of assets and investments can go down as well as up, so the actual transfer value may be more or less than that shown above. The actual transfer value will be calculated in accordance with your policy provisions and will not be known until the date of transfer.
- We have assumed that the assets and investments held in your Account can be readily realised, and the proceeds received by Scottish Widows, by the date of transfer. If this cannot be achieved in practice, there may be a delay in payment of the transfer value. Certain assets may be more difficult to realise than others, for example commercial property.
- For some in-specie transfers, there may be a delay in making the transfer payment depending on the types of assets involved.
- There may be costs incurred in realising certain assets and investments. Any costs involved will reduce the value of the transfer.
- With the exception of Adviser Charges, any other charges and expenses which cannot be collected from the relevant Control Account(s) will become a deferred charge. If there is a deferred charge in a relevant Control Account, it will automatically be settled from the disinvestments made into the Control Account to provide the transfer value. This will reduce the amount available to be transferred. A transfer cannot proceed whilst there is a deferred charge outstanding in the relevant Control Account(s).
- Any changes made to your Retirement Account before the actual transfer value is calculated may affect the transfer amount.
