4. Online Platform

We have developed a new online platform for you. This will allow you to manage your SSAS. You will be able to login and access your account and investments, we have called this platform: retirement capital.

We are launching the platform in 3 phases.

Phase 1 is available in now and it will provide you with helpful information including:

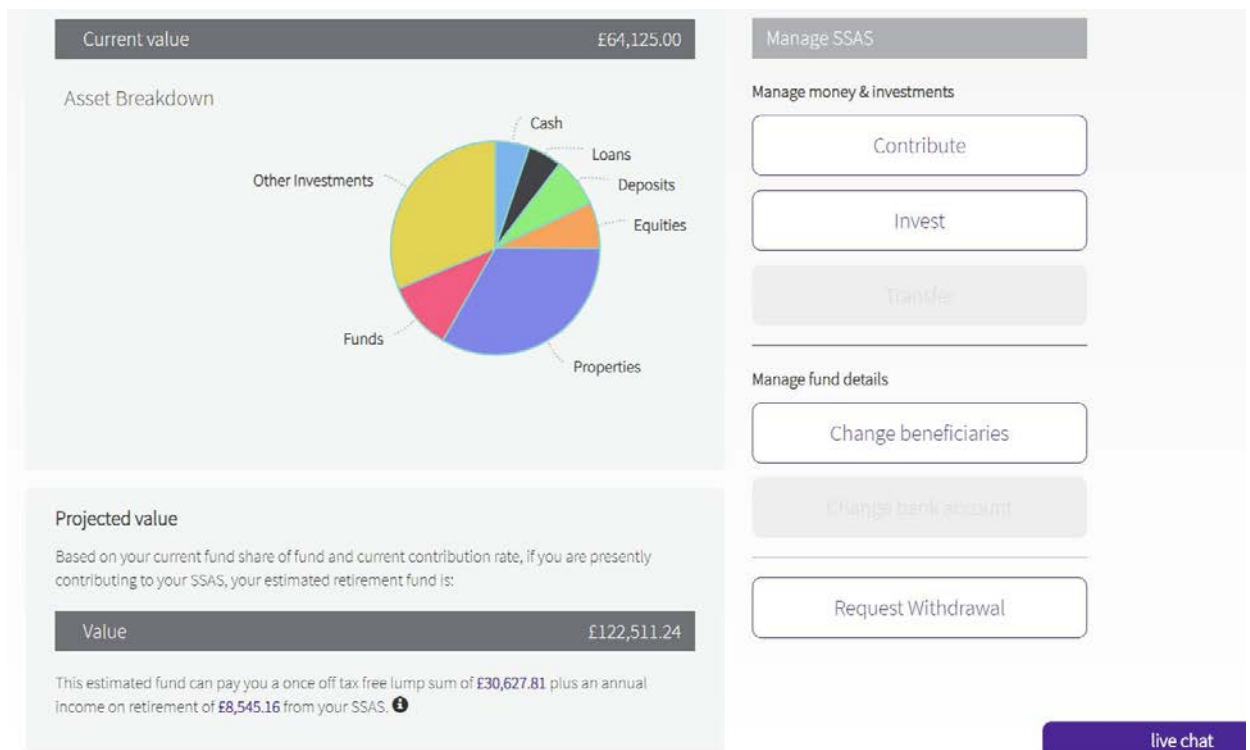

1. Contribute (your available annual allowance will automatically be updated)
2. Take pension benefits – you can set up pension and lump sum instructions via your dashboard.
3. Invest into your business – this can be set up as a pension scheme loan.
4. Secure the best deposit rates for your SSAS – the latest rates of deposit accounts are available depending on your chosen investment and term.
5. View and change your beneficiaries
6. See an immediate forecast of your benefits, with lump sum and pension income.
7. A nice pie chart of your holdings
8. Immediate cash value of your pension account (for AIB accounts)
9. Valuation of other assets
10. Online support and live chat
11. Tax reporting and scheme management

Phase 2 will build on these key functionalities and will include online bank instruction, document storage, stocks and share trading. We will also build on retirement and phased income calculation tools in phase 3.

Integrated share trading and dealing will be delivered by the spring of 2019, and we are working with our development team on share dealing integration at this time.

The key feature of this platform is that it brings together all the features of your SSAS under one roof, securely and in a user friendly way so you have a holistic picture of your retirement capital. This platform will allow you to access and manage your pension fund in a way which suits you, with access to a range of options which are unique to your small self administered scheme.

Certain investments can be integrated onto your dashboard, this includes funds which offer an API feed. Below is a snap shot of how your account could look

6. Data Protection Act Changes

The **General Data Protection Regulation (GDPR)** is a regulation intended to strengthen and unify data protection for all individuals within the European Union. It is effective from 25 May 2018 and replaces the data protection act. It is the biggest shake up in generations to data use, privacy and business impact. It covers anyone who is engaged in data use and storage.

Small self administered schemes have a unique relationship in that the employer sponsoring the scheme, the members and trustees are connected. Your scheme is affected by GDPR, because of the different bodies that exist in respect of the scheme.

As the sponsoring employer is a trading company and holds personal data it is affected by the regulations and as such, our GDRP service can by extension can help your business comply.

'Personal Data' means any information relating to an identified or identifiable natural person ('data subject'); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person. It is all encompassing.

Our newsletter, which is enclosed fully explains how GDPR affects your business. We have recently added new qualified GDPR Practitioners who are qualified to advise on GDRP and this is headed by Merle Oper. You can email Merle at merle@pensionpractitioner.com for more information or assistance for your Company.
