Subject: Testimonial

When looking for professionals to help us manage our executive pension scheme I was slightly concerned at the idea of approaching an organisation via the Internet. However, within a few days of making contact with Pension Practitioner.com, one of their senior advisors made the trip to Bristol to explain the service and set out in detail how we might implement some of our out of the ordinary ideas.

I was convinced that Pension Practitioner had the know how, technical support and can do attitude to provide us with the help we needed at a reasonable cost.

And they haven't disappointed. Since instructing them last year, Pension Practitioner have always offered practical and cost effective solutions to our every need and I would happily recommend them to anyone looking for a personal and responsive service.

As a media consultant, I am only too aware of the poor reputation of the pensions industry with low administration standards and high hidden charges. However, you seem an exception to the rule. I have found your organization easy to deal with, clear charges and an excellent level of personal service. Also, I appreciated your efforts on working into the night on ensuring that my scheme was tax registered in time, somehow I doubt if a 9-5 insurance company would have achieved that!

Thank you for everything.

A Francis

Thank you for the fast service and personal attention. I was very impressed by the way you focused on my company's particular needs and priorities, and also how clearly you communicated the options available. I'd heard that setting up my pension scheme would be a daunting and lengthy challenge - in fact, thanks to PensionPractitioner.com it was straightforward and was achieved very quickly. I will definitely recommend your services to others.
