Dear Client,

Investment Objective and Risk Profile for Your Account No. 6023444, (the "Account")

To better service your investment needs, we would like to draw your attention to the risk profile assessment for the above Account conducted through the discussion with your Relationship Manager and based upon the information you have provided in our standard risk profiling questionnaire.

According to our records, your **Risk Class is 5**, with **Maximum Growth** being the investment objective, which means that you are seeking total return mainly via capital appreciation. Liquidity is of no primary concern. You are an investor who is prepared to accept risk of market-like losses in line with those of the equity markets and intend to meet the possibility of significant short-term fluctuations by long-term investments. Examples of the products which may be suitable for such risk profile are term deposits, fixed income, spot and forward FX, equities, mutual funds, hedge funds, private equity funds, structured investments, options, swaps, accumulators/ decumulators and FX margin trading*.

We will continue to serve your Account based on the investment objective and risk profile stated above.

We would also like to remind you that you will need to inform us promptly should there be any changes in your circumstances that may give rise to any change of your investment profile as stated above. If you have any questions, please contact your Relationship Manager.

Thank you for being our valued client.

** Examples are not exhaustive and subject to change from time to time*
