Total electricity costs		£344.89
What you've paid	Credit	Debit
02 May 2023	Payment	
01 Jun 2023	Payment	
	£378.36	
	£378.36	
Total paid	£756.72	
Summary	Credit	Debit
Total electricity costs		£344.89
VAT 5.00% on £344.89		£17.24
Total costs for this period		£362.13
Your starting balance		£328.03
Total payments for this period	£756.72	
Your new account balance is	£66.56	

HM Government has introduced an Energy Price Guarantee which limits the amount you can be charged per unit of gas or electricity, effective from 1st April 2023 until July 2023. This Energy Price Guarantee has already been applied to this bill and, as a result, you have saved £177.12 for this bill period.

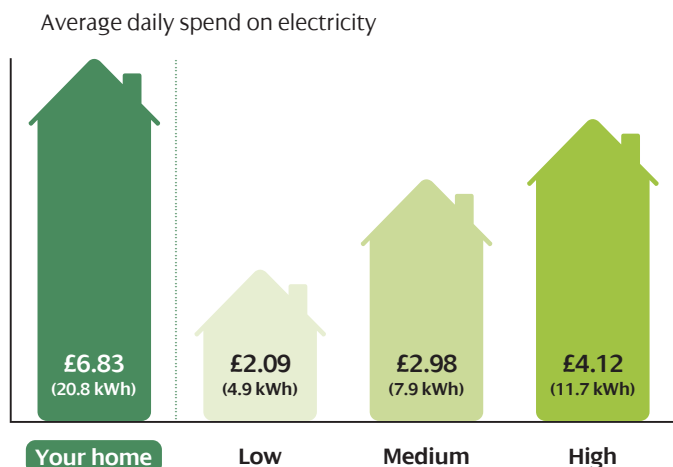

Meter type: Standard
Your electricity supply number:

S	01	801	100
25	0000	0154	998

Staying on top of your energy costs

How much energy do you use in a day?

Your average daily spend, based on your energy use and tariff, is shown below. To help you understand what type of energy user you are, we've also shown the equivalent daily spend for Ofgem's typical low, medium and high energy users. Figures include VAT at 5%.

Some top tips to help reduce your energy costs

Cool wash clothes

You can save around **£34** a year by using your washing machine at 30°C rather than at higher temperatures and reducing your washing machine use by one run per week for a year. Your clothes will still be clean and fresh without the added pressure on your pocket and the planet.

Don't use the tumble dryer

Using the washing line or an indoor clothes airer is better for your bills and the planet. In fact, it can save you around **£70** a year.

Fit an aerator to your kitchen tap

It reduces the amount of water coming out without impacting your ability to wash or rinse. It could save you around **£30** a year.
