### 1. Accounting Policies

### **Basis of Accounting**

The financial statements have been prepared in accordance with the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996 and with the guidelines set out in the Statement of Recommended Practice, Financial Reports of Pension Schemes.

The financial statements summarise the transactions of the scheme and deal with the net assets at the disposal of the trustees. They do not take account of obligations to pay pensions and benefits which fall due after the end of the scheme year. The actuarial position of the scheme, which does take account of such obligations is dealt with in the statements by the actuary and these financial statements should be read in conjunction with them.

#### Accruals Basis

The financial statements have been prepared on an accruals basis.

Interest and dividends, together with imputed tax credits (where applicable) are accounted for on an accruals basis.

Rents receivable are shown net of property outgoings other than management costs on an accruals basis.

Contributions are included when payable, according to the schedule of contributions agreed with the employer company.

#### Valuation Basis

All investments are valued at market value, which is the mid market value on the last day of the period as follows:

- 1) Unit trust or managed fund investments are stated at the mid-point of the latest prices quoted by the managers prior to 31 May 2019
- 3) Unlisted securities are valued by the investment managers, having due regard to latest dealings, professional valuation, asset values and other appropriate financial information.
- 4) Investment properties are included in the Net Asset Statement at the lower of cost or valuation. No depreciation is charged on the property since all properties are maintained for their investment potential.
